

Learning Maths

My first map had the zoo, TV, beach, home, Mum, Dad, Nana, Papa, Book, School, gym and laptop. I liked drawing the map and getting my ideas down. I like to learn better at school, like maths. I like maths and wanted to improve my maths. I kept on trying, I asked my teacher to help me read the numbers and I wanted my family to give me some maths to do.

We did the second map in lockdown and it has maths, Mum, Dad, pencils, spelling and technology. Next I am going to work on my spelling.
